Entertainment, Music, Leisure, and Presentation Industries

A successful project will need excellent communication with its whole team. This team should combine years of solid experience with cutting edge technical creativity. It has to be conscientious, pay attention to detail, and be highly skilled and well managed. We offer all this for your support and project development, from its evolution to its execution.

We have a reputation for getting the job done on time and on budget. We treat every project as a one-off, because no two are ever exactly the same. Our experience will bring a host of solutions. But our flexible approach to each challenge means we are always poised to develop new methods and techniques when needed to achieve the best possible result within the given parameters.

## COMPANY BIO

### Set Construction

We offer a high standard of traditional scenery construction and joinery fit-out services, in conjunction with latest cutting edge techniques from around the world. Innovative techniques used on complex stage set fabrication for concert tours and theme park theming are all part of our repertoire. We produce creative construction in timber, steel, aluminium, GRC, GRP and plastics,

If it's a budget conscious theatre tours, a world wide concert tour, a prestigious television show with lifts, pyro effects, water effects, moving staircases or a major fit out theming project in Europe give us a call and see how we will approach your project.
